Art Unit 123

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103, the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103.

The status of each of the applications should be supplied.

Applicants should submit a clean duplicate copy of claims 108-136.

Claims 108-136 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over the prior invention as set forth in claims 1-29 of U.S. patent no. 4,486,420. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant subject matter as herein claimed is not patentably distinct from the subject matter of the claims in the above noted patent.
